

DRIVING RANGE FAQ's

How do I maintain social distance on the driving range?

You will be met on arrival when clear instruction will be provided on how to safely use our driving range. We have put in place an organised system to ensure you are directed to a numbered range bay. The walkway at the back of the range is now a one way system. The range bay you will play from is solely for you. At peak times you will have a maximum of 1 hour in your bay.

Do I need to book in advance?

No, please turn up as bays are single use only and on a first come, first serve basis. If no bays are available, you will be asked to wait in a social distanced queue immediately outside the range.

Can I play with members of my household?

Each bay is reserved for single use. If you arrive with members of your own household, each of you will require a bay in order for the walkway behind each bay to maintain a 2 metre passing space.

How do I pay?

All visitors will need to proceed to the Café to check in. Here you will be able to purchase range balls on pay as you go, top up range cards and request ball baskets using your range card credit. Please note we are not accepting any cash payments.

What cleaning and hygiene processes do you have in place?

On arrival you will collect your basket of balls which has been sanitised for your use. Balls retrieved from the outfield are washed and sterilised before being recycled into the ball-hopper. If your range bay is equipped with a screen, procedures are in place to clean screens between users.
